

Report bugs Mac Os El Capitan

Safari 10.0.2 Firefox 50.1 chrome 55.0.2

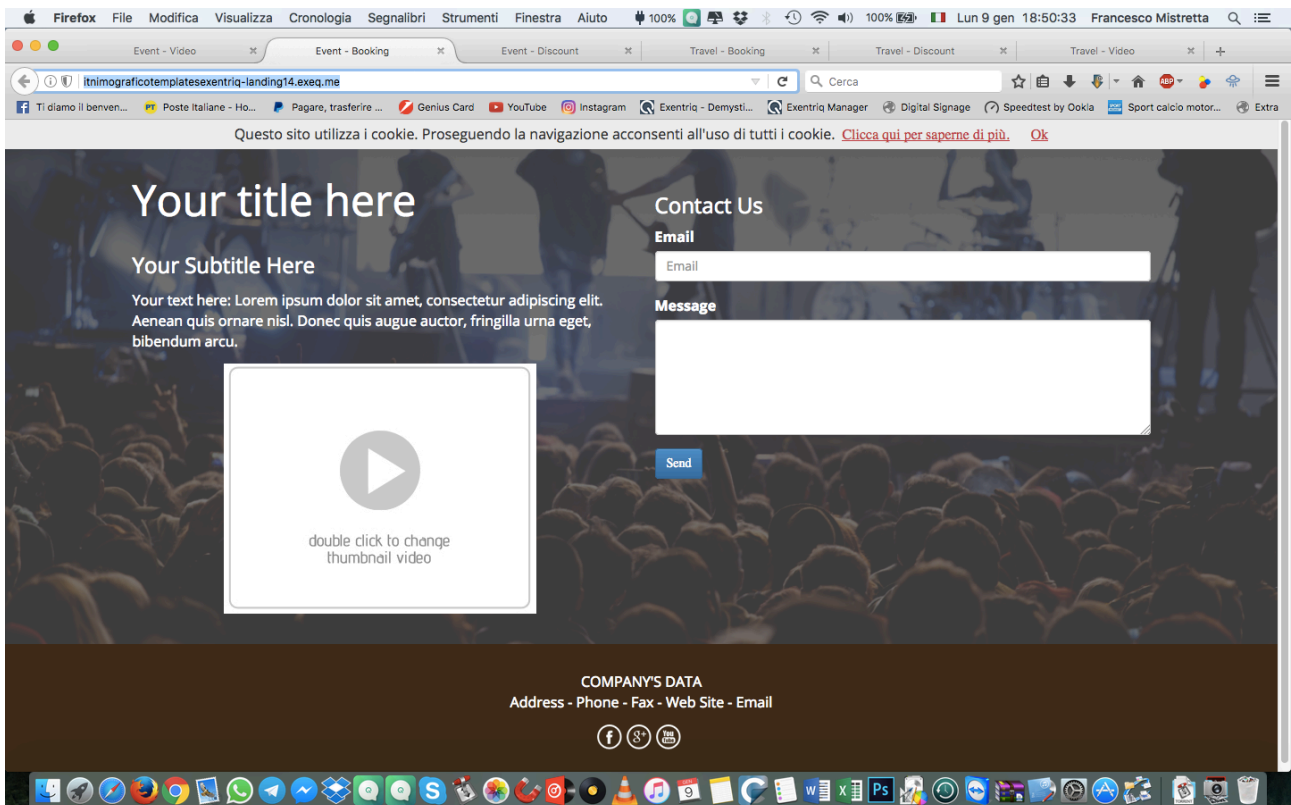

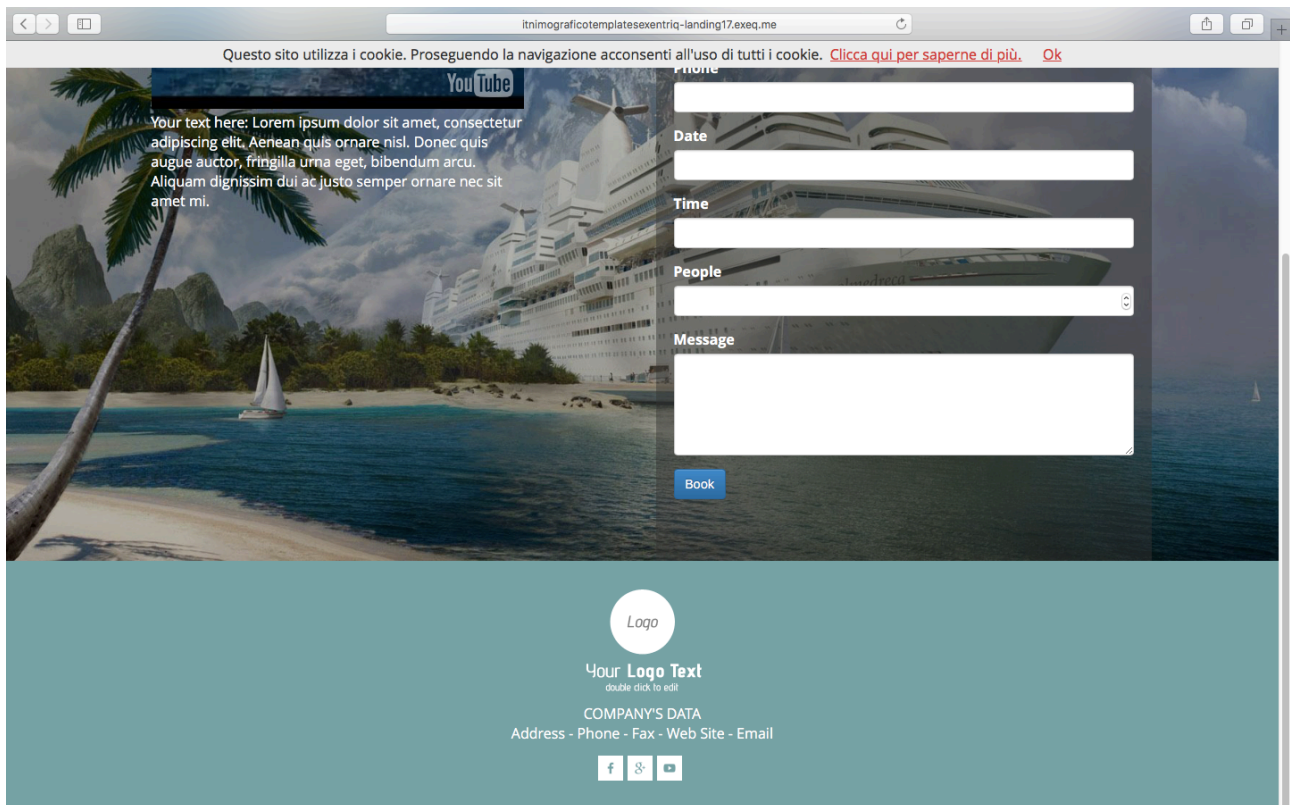

Il footer deve stare così attaccato?

Su safari 10.0.2 si vede così

Su firefox 50.1. invece... (quale delle due è corretta?)

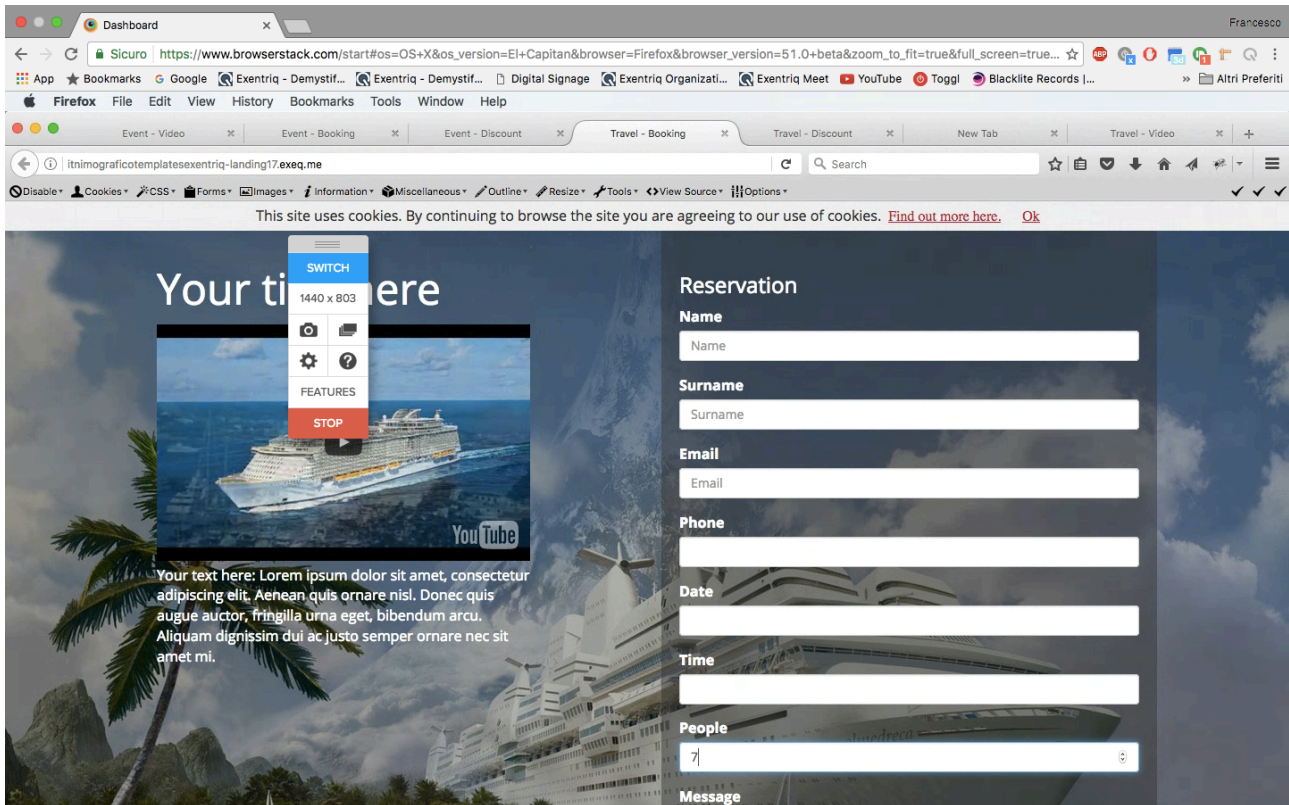

il footer così grande è una scelta?

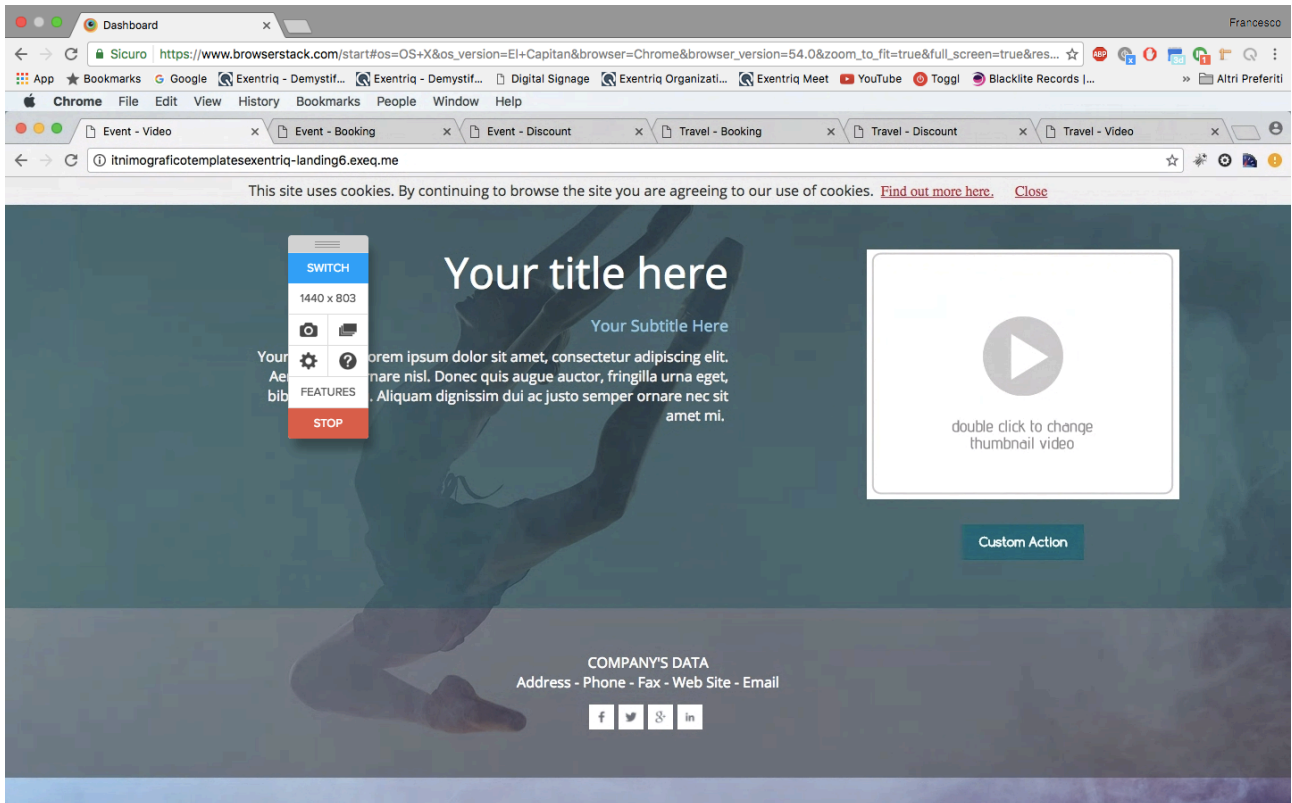

Su Safari e su firefox i forms date time e people non funzionano.

Firefox 51.

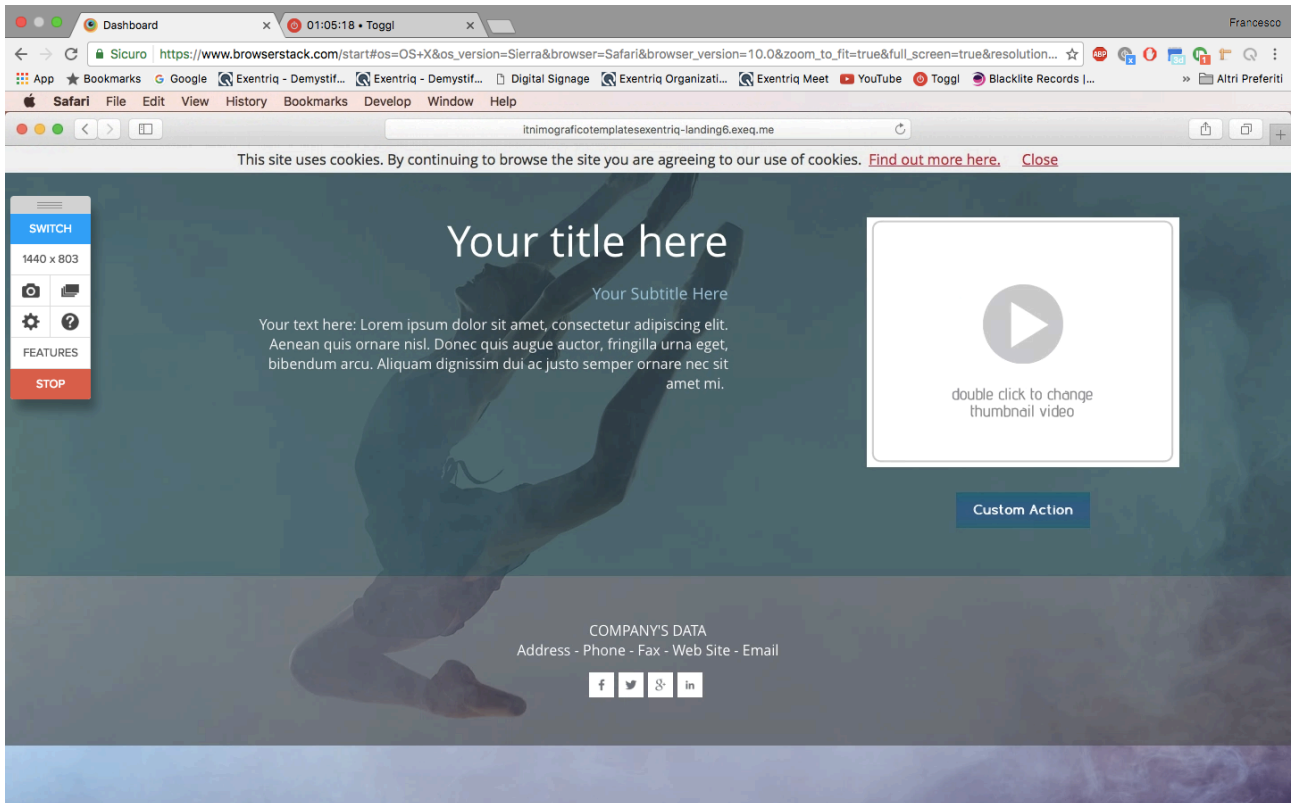

Il form people funziona quello time e quello date no.

Chrome 56

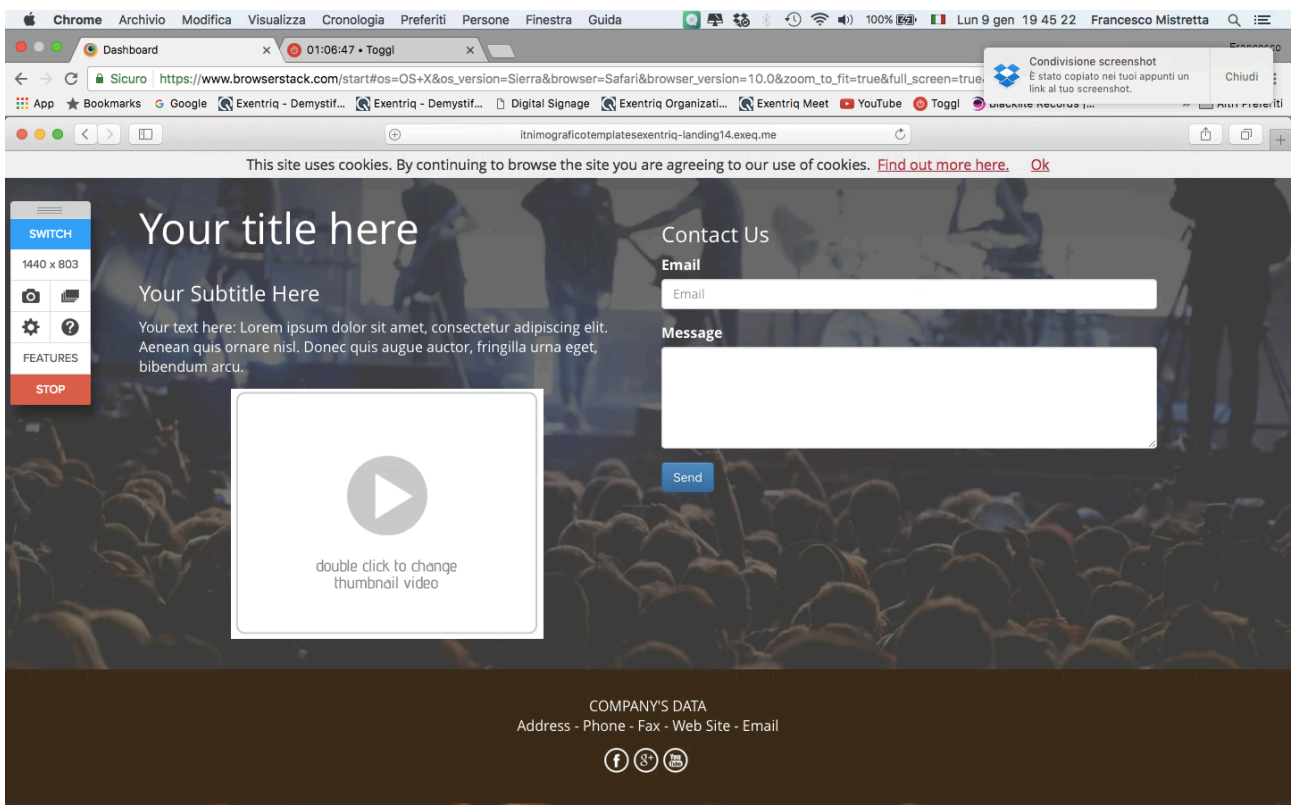

Il footer si presenta così.

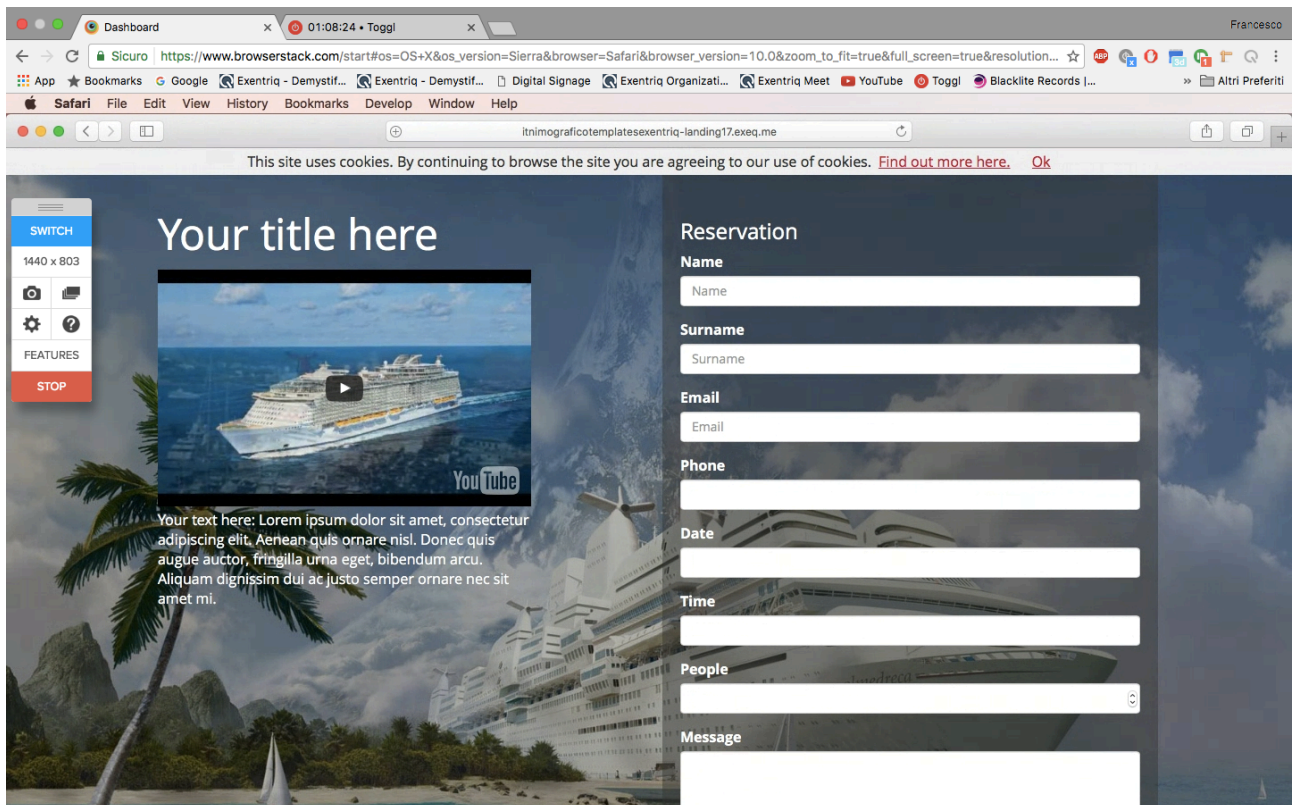

Mac os Sierra

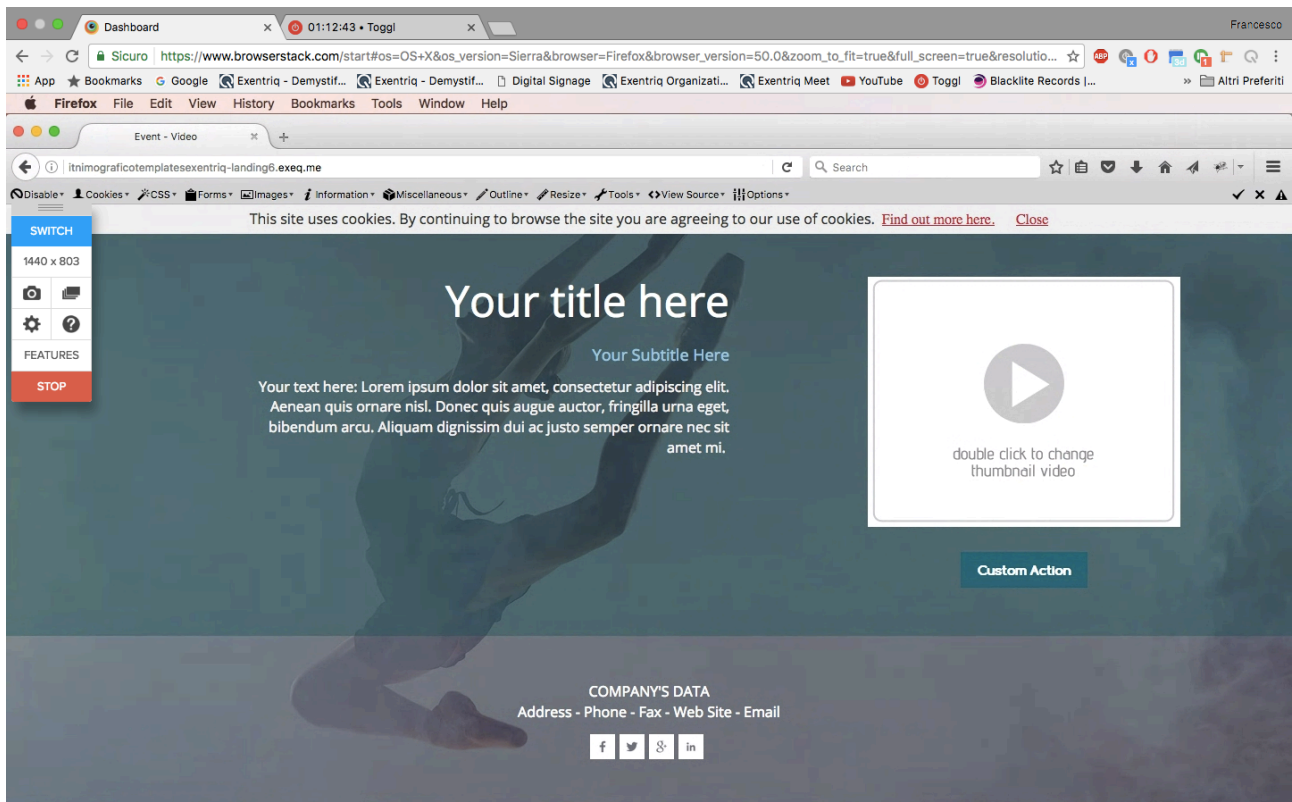

Safari 10 footer attaccato al corpo pagina

il footer non è a filo con il fine pagina

Safari 10 , firefox 50 i forms date e time non funzionano.

Su firefox 50 mac sierra a mio avviso si vede correttamente su tutti gli altri browser no...
